

CAREER OBJECTIVE

Detail-oriented **Technical Support and QA professional** with a strong foundation in **Python, JavaScript, and SQL**. Adept at **troubleshooting** backend systems, **testing REST APIs**, and ensuring database integrity using **PostgreSQL and Django**. Passionate about diagnosing software issues, optimizing application performance, and ensuring reliable deployments via Docker.

TECHNICAL SKILLS

- **Infrastructure & Testing Tools:** Postman, Docker, Git/GitHub, JSON Server.
- **Backend & Databases:** PostgreSQL, SQLite, RESTful APIs, Django, Django REST Framework (DRF).
- **Languages:** Python, SQL, JavaScript (ES6+), HTML5, CSS3.
- **Frontend Technologies:** React.js, Tailwind CSS, Bootstrap 5.

PROJECTS

TicketHub AI - Smart Support System | [GitHub](#)

Built and managed a containerized IT platform using Docker Compose for reliable frontend-backend integration

- Engineered robust network fallback mechanisms for third-party REST API integrations, ensuring system stability during API latency or network failures.
- Troubleshoot and optimized database queries using Django ORM aggregations, enforcing strict PostgreSQL database-level constraints to maintain data integrity.

Hotel Management System | [GitHub](#)

Developed and tested a responsive Single Page Application (SPA) utilizing Vanilla JavaScript (ES6+) and Bootstrap 5.

- Implemented rigorous client-side business logic and form validations, effectively managing async network requests via the Fetch API and debugging client-server communication.
- Configured a Node.js JSON Server to simulate REST API endpoints, extensively testing CRUD operations and data manipulation for a mock Admin Portal.

Virtual Fitting Room | [GitHub](#)

- Optimized computer vision system performance to reduce application latency and ensure accurate, real-time mapping of interactive overlays.

EXPERIENCE

Android Developer Intern | India Edu Community by Google Developers *Mar 2024 – Apr 2024*

- Tested and optimized UI event handling to ensure smooth performance and resolve interface rendering issues across multiple Android device profiles

Salesforce Administrator Intern | AICTE NEAT Cell & SmartBridge *May 2024 – Jun 2024*

- Configured and tested automated workflows, dynamic dashboards, and custom reports across Sales and Service Cloud modules to ensure highly accurate data management.

EDUCATION

B.Tech – GITAM Deemed to be University

Computer Science and Engineering (CSBS) – Bengaluru, India

2021 – 2025

CGPA: 6.3/10

CERTIFICATIONS

- AI/ML Intern – India Edu Community by Google Developers
- MatLab OnRamp Certification
